EXPERIENCE

FREELANCE PYTHON DEVELOPER
2022 Sep - Now

Mostly worked with telegram bots, using different technologies:
1. Django as admin panel, PostrgeSQL as database, Django ORM, telebot for telegram, Docker for local testing, pytz and apscheduler for some inner tasks:
https://github.com/Grasmurr/fitness_bot/
2. SQLite as db, pure SQL for queries, aiogram (async library) for telegram bot:
https://github.com/Grasmurr/salmon_shop/

SKILLS

Python: basics, OOP, SOLID, asynchronous, numpy, pandas, matplotlib, api, requests, celery, redis/rabbitMQ, pytz, aiogram/telethon/telebot, apscheduler, Algorithms, Data structures
Databases: SQLite, PostgreSQL, MySQL
Frameworks: Django, Flask
Technologies: Git, Docker, Bash, Linux
Other: HTML/CSS, English C2, Excel/Word
